San Juan, Argentina · Remote martinfernandez.dev linkedin.com/in/martin-fernandez8
github.com/martin-fernandez26

Full-stack developer with 5 years of experience designing, building and running web and mobile platforms for businesses. I lead projects end to end: product definition, architecture and data modeling, backend, frontend, deployment and support. I have shipped multi-tenant SaaS products in healthcare and fintech and a system serving 5,200 users a month. AI is part of my daily workflow, and I integrate it into products where it creates real value.

EXPERIENCE

Freelance Full-Stack Developer · Independent — 2021 – Present

Lead end-to-end development of web and mobile platforms for clients in healthcare, legal services, fintech and community organizations. Founded and run my own SaaS products. Own the full cycle: discovery, architecture, data modeling, backend, frontend, deployment and support.

Full-Stack Developer · Verificación Técnica San Juan — Oct 2023 – May 2025

Designed and built the system that runs mandatory vehicle inspections, used by 5,200 people every month. Led requirements with stakeholders and planned delivery. Angular, TypeScript, Node.js.

SELECTED PROJECTS

GridMedica gridmedica.com

Multi-clinic platform connecting appointments, medical records, imaging and billing around one patient record. Own medical imaging server and viewer (slices, MPR, 3D) and a patient portal.

SysLab syslabcloud.com

Multi-tenant SaaS I founded and built for clinical labs: appointments, quotes, patients, test results, billing and automated notifications.

MiAbogado miabogado.com.ar

Web and mobile marketplace connecting people with verified lawyers: search, messaging, secure payments, case tracking and an AI legal assistant.

RTO San Juan rtosanjuan.com.ar

Vehicle inspection management system with 5,200 monthly users.

Senda Facturación sendafacturacion.com

Electronic invoicing for Argentine businesses, connected to ARCA, with cash register, customers, products and stock.

Unión Vecinal Carpintería unionvecinalcarpinteria.com

Website for a neighborhood association in Pocito, San Juan.
